#### Present-Day Fashions.

The advantage of daily communication with their Establishment in Paris, secures for MESSRS. LIBERTY the earliest possible information regarding Paris Fashions; and enables them to make at once carefully arranged Models in accord with the exacting good taste of English Gentlewomen.

#### Picturesque Fashions.

Some Examples in the present series are based on by-gone Picturesque Periods in the History of Costume, which offer perennial motives, are never "out of date," and are always admired.

#### Harmonious Fashions.

Other examples are designed to be worn with the "Liberty Specialities" in Gowns and Dresses, in order that the Head-dress may form a harmonious part of the entire Costume.

#### Children's Fashions.

A very varied, choice and full selection of Children's Hats and Bonnets, in the characteristic and world-renowned "Liberty" specialities, are always kept in stock.

#### Variation of Designs.

Any suggested alteration of the designs illustrated herein, can be re-drawn and estimates submitted *free of charge*.

#### Special Designs.

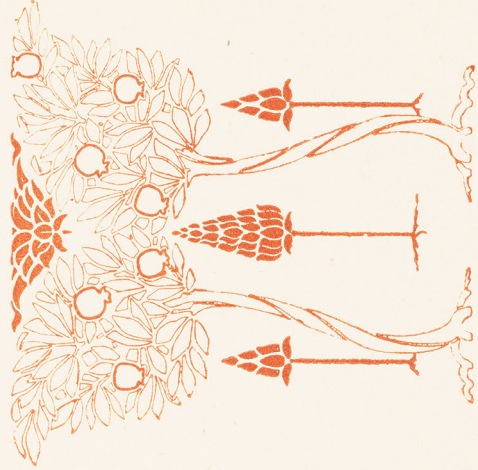

Special Designs can be speedily prepared on receipt of particulars of the requirements, and submitted on approval, *free of cost*.
